

## Exercices de la séquence 5 : fractions plus grandes ou plus petites que l'unité

1) Dire si une fraction donnée est supérieure ou inférieure à l'unité :

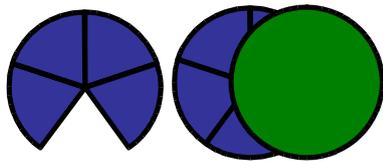

Ex :

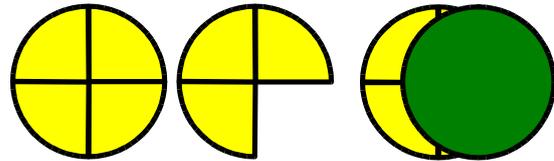

$$\frac{1}{2} < 1$$

$$\frac{11}{7} > 1$$

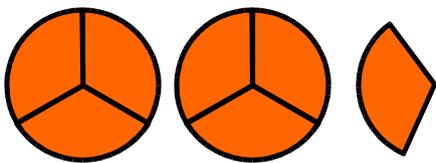

$$\frac{4}{5} < 1$$

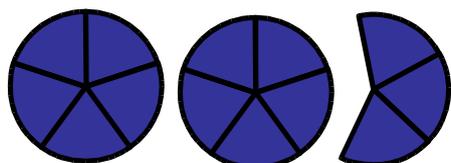

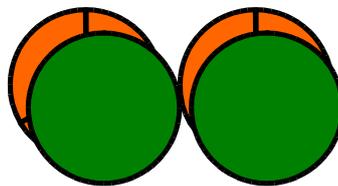

$$\frac{7}{4} > 1$$

2) Dire si une fraction donnée est supérieure ou inférieure à plusieurs unités.

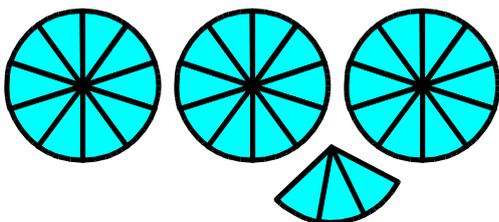

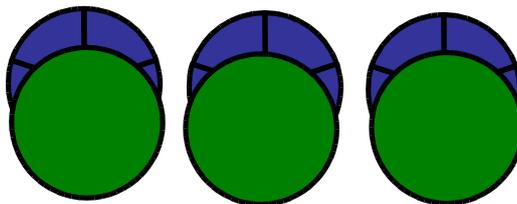

Ex :

$$\frac{7}{3} > 2$$

$$\frac{13}{5} < 3$$

$$\frac{33}{10} < 4$$
